SHUKHRAT MALIKOV

Software engineer with a focus on web, mobile app, and frontend development. I've been working with Javascript and its ecosystems - React js, React Native, Redux, Mobix, and TypeScript for 2+ years.

Besides frontend development, I possess good knowledge of algorithms and data structures. I am a curious, fast learner, an open-minded developer with a passion for working with a friendly team on challenging/interesting projects

------ EXPERIENCE ------

React, React Native Developer - *12/2023 – Present*
Softwhere -- *Tashkent, Uzbekistan*
https://softwhere-uz-86ky.vercel.app/uz

> *General information about the projects: The projects consist of creating mobile apps and web apps from scratch and delivering them to the user using modern libraries. They also include further improving the performance of the projects in progress, fixing bugs, and adding new features.*

Achievements/Tasks

- Fixed major bugs related to design, functionality and performance, speeding up the project's transition to production
- Introduced a feature with CRUD operations seamlessly integrated with the backend using React Query, Redux and MobX
- Worked closely with the backend team to make the API more stable, which makes integration with the frontend smoother
- Conducted thorough intelligence testing, reported issues and made suggestions for improvement

Technologies: React Native, Expo, React js, Javascript, Typescript, React hooks, roots, Redux Tookit, React-query, MUI, Tailwind css, Web Socket

React, React Native Developer - *09/2022 - 11/2023 (1 year 3 months)*
Empire Soft -- *Tashkent, Uzbekistan*
https://empire-soft.net

> *Projects: Very useful online stores. You can easily find anything in these apps*

Achievements/Tasks

- Designed and implemented the project structure with linting configurations to ensure clean and maintainable code
- Proposed new features and contributed actively to project planning and decision-making
- Developed reusable components and state management using **React** and **Redux Toolkit**
- I developed a highly efficient online store application for iOS and Android devices using the React Native and Expo platforms
- Resolved application bugs, ensuring smooth user experiences

Technologies: React Native, Expo, MobX, Redux Tookit, Java-script, Typescript, HTML, CSS, React, Tailwind CSS, Eslint, Axios

EDUCATION

Tashkent State Transport Unversity
EE by networks
09/2019 - 06/2024

SKILLS

- HTML
- CSS
- Bootstrap
- JavaScript
- React JS
- Redux
- MobX
- React Native
- TypeScript
- Expo
- Web Socket
- Tailwind
- MUI
- React-Query

LANGUAGES

English
Upper Intermediate (B2)

Russian
Basic

Uzbek
Native or Bilingual Proficiency
